

How to enter

In the white columns, F and G input the score you predict for each game in the group stages.

Each group is worked out for you, and the knockout stages will be populated accordingly.

Predict the results of the knockout phase, all the way through to the winner.

Scoring Points

Points are scored for successful predictions.

Getting the score bang on gains you 3 points

Getting the result correct gains 1 point

For each team you place correctly in the knockout stages 3 points

For each team you place incorrectly in the knockout stages 1 points

except

For each semifinalist correctly predicted 5 points (2 points for incorrectly placed)

For each finalist correctly predicted 10 points (5 points for incorrectly placed)

For picking the winner - 20 bonus points

Example:

In the group stages prediction is:	Germany 2 Ghana 1
Actual result is Germany 2 Ghana 1	3 points
Actual result is Germany 4 Ghana 0	1 point
Actual result is draw/Ghana win	0 points

Knockout stages

If you have Germany and Ghana 1st and 2nd in their group and that's how they pan out, then you get 3 points for each team being correctly placed in the fixture list.

Should the group finish with Ghana on top then Germany, you'd get 1 point for each team, as they both qualified but in the wrong order.

Result predictions will be taken regardless of teams in the match.

I will also be allowing separate predictions to be entered for the knockout rounds, so even if you make a complete Horlicks of the group stage, there's still a chance to make up points.

You'll all be emailed with a reminder near the time.

What's it cost/What's in it for me?

Entry is £5. £2.50 of which goes to the winner's prize, £2.50 goes to club funds.

The prize pot will be split 60%, 30%, 10% if more than 20 entries are received, otherwise, it's winner take all

Email your entry to chappersp@gmail.com

I'll send you details of how to pay when your entry arrives.
